

THANK YOU FOR CONSIDERING
A COMMISSIONED ARTWORK
WITH

SARAH
LAMB

I specialise in semi-abstract landscapes, creating work inspired by nature and infused with magick.

By capturing representations of dramatic scenes through vivid colour, organic shapes, and sweeping textural paintwork, I aim to evoke the profound connection that exists between humanity and the natural world.

I invite clients to appreciate and respect this unique approach, and to request a commission with this in mind. I reserve the right to decline requests that don't align with my artistic style or ethos.

HOW DOES IT WORK?

If you already have a vision in mind, I'll collect some information from you to help bring it to life. If you're unsure, don't worry! We can discuss details and collaborate on ideas.

We can connect via email, phone, video call, or even in person if practical.

From here, I'll provide you with a tailored quote. If needed, we can adjust the brief to better align with your budget. Together, we'll finalise the details, pricing, and timelines.

Once you're ready to proceed, I'll send you a contract outlining all terms and conditions, as well as a request for a deposit.

I'll keep you updated throughout the creative process with regular progress updates. When the artwork is complete, we'll finalise payment and arrange delivery, allowing you to enjoy your bespoke piece.

WHAT I PROVIDE

- A bespoke, one-of-a-kind artwork tailored to your vision
- Regular progress updates
- Clear communication and transparency at every step

WHAT YOU CAN PROVIDE

- Desired size
- Your ideal cost range
- Theme (sky, sea, mountain, etc.)
- Preferred colour palette
- Reference images or inspiration
- Examples of my previous work you admire
- Any additional ideas or notes

HOW MUCH DOES IT COST?

Fees are based on the size, complexity, and specific requirements of your commission. Due to the bespoke nature of this work, costs are typically higher than pre-created pieces.

However, I believe art should be accessible to everyone. If budget is a concern, we can explore adjustments to your brief that align with your vision while keeping within your means.

Let's discuss your ideas, and I'll provide a tailored quote that reflects the essence of your imagination.

EXAMPLE COSTS:

As a general guide, costs may follow this formula:

Size of the piece (in centimetres) x £5

This is a rough estimate. Specific details, intricacy, and materials may influence the final cost.

WHAT NOW?

To commission a bespoke piece, or if you have any further questions, please contact me via email at sarahlamb.studio@gmail.com. We'll start discussions about your vision, requirements, and how we can bring your ideas to life.

To secure your commission, a deposit of 50% of the agreed fee is required before work begins.

The remaining 50% will be due upon completion, just before delivery or collection.
